Danang, Vietnam

As an enthusiastic and goal-driven programmer, I am looking to apply my knowledge and want to learn and grow with the company

WORK EXPERIENCE

Umbala Metaverse • Font-end Web & Mobile Developer (Full time Intern)

APRIL 2022 - AUGUST 2022

- Developed the mobile version of the website <https://umbala.io/>
- Participated in mobile app development (company internal project) using Flutter
- Developed feature login with MetaMask and get the wallet address
 - Achievements and skills gained:
- Learned more about OOP, SOLID, Software Architecture(MVC, MVP, MVVM, Clean Architecture), and Design Pattern
- Improved the ability to use Flutter (call API with Retrofit, state management with Provider and BLoC, use DI, deep-link, write unit test,...)
- Improved teamwork and Agile Scrum skills

Little Star Project • Leader & Mobile Developer

NOVEMBER 2021 - MARCH 2022

<http://little-star-web.herokuapp.com/>

Little Star is an app to help children from 3 to 7 years old learn Vietnamese with listening - reading - speaking skills and watch good videos that have safe content and are useful for the growth of the child.

- Main responsibilities:
- Made a plan, wrote Business Model Canvas, made the slide, and reports
- Developed the Flutter mobile app for kids to practice listening, reading, and speaking skills and a dashboard for parents to check lessons history, time using the app, videos that kids watched
- Apply Scrum, manage tasks and progress of team members, held meetings with mentors, and support team members
 - Recognition and Gains:
- Top 1 in the "Moment of Trust" contest in Passerelles numériques Vietnam
- In the top 100 of Startup Wheel 2022 (<https://startupwheel.vn/vi/cong-bo-top-100-startup-wheel-2022-vietnam/>)
